

SUMMER HOMEWORK 2024 ESO

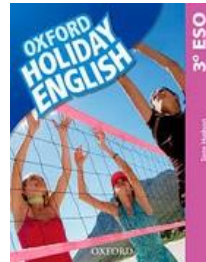

Dear students,

So that you can maintain and improve your English skills that you have worked hard to achieve during this school year, here are a few activities to help you over the summer:

- Prepare a 5-minute voice note or writing on one of the following topics:
- My summer experiences,
- A film or series review,
- Local news,

- If your final mark is “Satisfactory” or less, we recommend a summer booklet such as Holiday English (Oxford) for ESO,

- However, the most important recommendation is to enjoy the summer by using your English to relax and watch series and films, listen to music, read, and take advantage of any occasion to chat in English with friends, family, on holiday, or with tourists who need help.

Remember if you do other activities in English, such as summer courses, summer camps or Cambridge exams, you can show the corresponding certificate to your English teacher when you come back in September.

Have a great summer!

The English Department.

HELLO SUMMER!
